

Academic Career Experience (ACE) The new and improved EXCEL

This course is for students to learn about careers through experience. Students are placed at jobsites in the community in the career of their choice to learn about the demands and requirements of the career of courses they have already taken at the high school. Students also learn about general employability skills and good work habits such as punctuality and attendance. This is an unpaid internship. The Career Technical Education staff makes the final determination of jobsites.

- Prerequisites.**
1. **Must be a Junior or Senior**
 2. **Must have taken a class within the desired occupation pathway**
 3. **Must have had good attendance**

******This course is for 4 class periods. It will be scheduled either all morning or all afternoon based on job placement.******
