

# **AutoCAD Solid Modeling**

## **AutoCAD Solid Modeling**

AutoCAD Solid Modeling is the capstone course in the Drafting and Design Technology Pathway. This course uses three-dimensional parametric modeling to create advanced pieces, assemblies, and presentation files. Course focuses on leadership and implementation of drawings within the STEM world. Students earn Dual Credit (DRFT 114 & DRFT 164) by registering for DACC dual credit and completing coursework with a B or better in the course. Prerequisite: Construction Print Reading or CAD Design and Software and 11th or 12th grade. Cost to Student: \$25.00 dual credit fee/ \$40.00 non-dual credit fee per course

**Course ID#= AUTOCADSM-GN-Y**
